# Patrick Stival Chaerke

## Profile

Full-Stack Web Developer (mostly Javascript) with skills on analysis, writing, reasoning, music composition and open-source contributing.

Knowledge in website, desktop and mobile apps development with various databases such as Firebase and PostgreSQL.

I'm also a Blockchain enthusiast.

## Professional Experience

01/2018 - 05/2018
LAP - I worked on a Farm Management System building UI components with Vue.js and handling API data with Mongoose and Express. There's also where I had my first contact with docker.

05/2018 - Now
Logcomex - I currently work mainly as a Vue.js developer in there. I build reusable components, transparent wrappers, configure Webpack plugins or anything else related to front-end maintainability.

Sometimes I take the initiative and do back-end stuff on Laravel.
